WEBUSD

ABOUT US

There is an enormous amount of extreme volatility, FOMO, selling out, and inflation in the current altcoin landscape.

A deflationary asset and stable token with dumping protections and monetary incentives for holding is the goal of WUSD.

It has features such as an anti-dump tax, holder rewards, and burns on every transaction. It is a utility token.

Additional burns and reward systems, such as yield farming/staking, airdrops, and NFT drops, are being considered and will be implemented into the tokenomics of WUSD.

A number of community features, such as private groups where new projects are announced and incubated, as well as governance, are made available to WUSD membership through membership.

WHY CHOOSE WUSD

WebUSD Digital plans on becoming a blockchain enterprise specifically designed for global payments. WUSD is a fully decentralized ecosystem with peer-to-peer transactions developed on the Binance Smart Chain (BSC).

Our goal is to yield long-term Return-on-Investments (ROI) for WUSD holders.

WUSD is a non-mintable deflationary token, and holders can receive a 3% monthly interest for holding tokens.

WUSD digital has a 5% auto-burn fee on every transaction. In addition to this, WUSD holders also receive a 5% redistribution fee on every transaction.

Additionally, WebUSD Digital re-performs smart contract audits to ensure security. We also have a community-driven platform, where the community makes crucial decisions.

WUSD has also imposed an anti-dump tax of up to 10% to prevent large dumps. An NFT marketplace is also provided by WUSD, where users can mint NFTs at a low fee. We can also buy or sell third-party NFTs. WUSD holders will further gain rewards for bidding and pricing NFTs.

WHY BINANCE SMART CHAIN

ERC-20 projects are unable to conduct any microtransaction payments on Ethereum due to high Ethereum gas fees. This makes it impossible to use the Ethereum network for one of its main applications.

WUSD was RE-deployed on The Binance Smart Chain with the purpose of improving DeFi users. This ensures that transactions, staking, and NFTS trading are all carried out at the lowest possible cost while keeping the maximum possible yields.

WUSD TOKENOMICS

TOKEN NAME: WebUSD
TOKEN SYMBOL: WUSD
TOKEN DECIMALS: 18

TOTAL SUPPLY: 1,000,000,000 WUSD
TOTAL TO SALE: 200,000,000 WUSD (20%)
AIRDROP: 200,000,000 WUSD (20%)
LIQUIDITY LOCK: 400,000,000 WUSD (40%)
TEAM: 50,000,000 WUSD (5%)
HODLING REWARDS: 100,000,000 WUSD (10%)
BURN RESERVE: 50,000,000 WUSD (5%)

Sale price: 1WUSD = (0.0000025BNB-\$0.00075)

listing price: 1WUSD = (0.0005BNB-\$0.15)

Airdrop Holders can only allowed to sell 10% monthly

ANTI-DUMP MECHANISIM

Max sell is 1000 WUSD Per week

single transaction limit is (50 WUSD)

5% of Fee will be burnt after every transaction

3% of Fee will be distributed to all Holders of ABOVE 100WUSD 5% of Fee will be distributed to all Holders of ABOVE 1000WUSD APR of Holders Staking WUSD will earn up to 250% Per year.

CONTRACT(BSC):0x4b12dDE5Db1330c0471879700eF016B275eEaF7f

WEBUSD

WUSD TOKEN UTILITY

Deflationary

The WUSD BEP-20 contract does not have a mint feature. Since its introduction, the WUSD has been completely deflationary. A percentage of each sale is burnt, and burn events will be organized on a regular basis to further diminish the total supply. As a result, the overall supply of tokens decreases over time, making them more scarce.

Passive Rewards

after every WUSD transaction made on the BSC blockchain, 5% FEE is redistributed to all holders. Also, By simply holding WUSD tokens, holders collect 3% fee passively as a reward. These rewards will automatically be reflected in the holders wallet balance. You can also earn an apr of up to ~250% Yearly ROI for staking WUSD/ BNB in our Pool.

Anti-Dump Tax

To deter massive dumping, an additional progressive tax is applied on every sale, according to the amount sold, and is burnt.

For most sellers, this cost will be insignificant, but for major sales, it might be up to 5% of the overall sales price (approaching approx . 1 percent of total supply).

This charge is burned, reducing the total supply even further.

STAKING AND LIQUIDITY POOLS

STAKING

You can stake WUSD/BNB and a range of other cryptoassets at our pool.

This puts your assets to work while also providing you with an annual APR estimate.

Staking WUSD tokens on our platform will provide you with an annual return (APR) of approximately 250 percent.

LIQUIDITY POOLS

By adding their tokens to liquidity pools, or "LPs," users can contribute liquidity to WUSD pools.

When users add their tokens to a liquidity pool, they will receive LP tokens.

(WUSD version of liquidity provider tokens).

For example, if you combine WUSD and BNB in a liquidity pool, you will receive WUSD-BNB tokens.

The number of tokens you receive represents your share of the WUSD-BNB liquidity pool.

Additionally, you can withdraw your liquidity at anytime to redeem your funds.

Provision of liquidity is not without risk, as you may suffer a temporary loss.

“In other words, the difference between storing tokens in an AMM and in a wallet is impermanent loss.”

However, it is not all bad news for liquidity providers, as you will be compensated with trading fees.

When someone trades WUSD, they pay a 0.2 percent commission, 0.33 percent of which goes toward the swap pair's liquidity pool.

WUSD TOKENSALE INFORMATION

WUSD PRESALE

Start Date

July 10, 2021 (00:00AM GMT)

End Date

August 30, 2021 (00:00AM GMT)

Available tokens for sale

200,000,000 WUSD

WUSD Token price

1BNB = 400,000 WUSD

1 WUSD = 0.000003333 BNB

Min Buy: 0.01BNB

Max Buy: 10BNB

SOFT CAP: 1000BNB

HARDCAP: 2000BNB

WEBUSD

- If Tokens are sold out at a really fast rate, after every 100,000 tokens sold the price after each WUSD purchase will be increased by 1% to make tokens more expensive and achieve hard cap (faster)
- If Tokens are sold out before end of first presale date, then crowd sale will kick off immediately
- If Hardcap is reached during Presale, Or Crowd sale, The tokensale will be halted immediately and unsold tokens will be burnt
- If Tokens are not sold out completely at the last date of the crowdsale, all unsold tokens will be burnt as well.

PANCAKESWAP & BAKERYSWAP LISTING FOLLOWS

IMMEDIATELY AFTER CROWDSALE. PRICE: 1WUSD = 0.00001
BNB (\$0.1USD)

WEBUSD

URGENT INFORMATION TO NOTE

DURING PRESALE, WE URGE EVERYONE NOT TO BUY ANY FORM OF WUSD FROM PANCAKESWAP.

The reason for this is that LP can be added to a pancakeswap for our token or a Fake WUSD Token by someone we don't know, and when people buy these WUSD tokens from a pancakeswap, the person can remember the liquidity he/she added, resulting in the loss of your funds as well. strongly recommend our members not to trade on pancakeswap even with a very high eye trading chart. only purchase WUSD from the official source, which is <https://e-usd.network/get>.

Another reason we do not recommend purchasing from Pancakeswap is that if you disobey this order and purchase from Pancakeswap, your referrer (the person who invited you to the platform) will not receive the referrer bonus that was supposed to be sent to him/her.

Attempting to buy from a PCS is claiming 100%, which we avoid by allowing people to buy from our website so their referrers can gain 100%

for Example,
4000WUSD can be purchased from the website for 0.01BNB. You will receive 4000 WUSD, and your referrer will also receive 4000 WUSD.
if You purchase 6000WUSD from pancakeswap at 0.01BNB, and you receive the entire amount while your referrer receives nothing.

The referrer may later issue a complaint if she invited someone to purchase WUSD and did not receive anything in return. The person decided to buy from pancakeswap.
(Say, for the reason, to obtain more tokens.)

We have made an order to blacklist all addresses that purchase from Pancakeswap by the end of the presale and before the listing, which is on August 30th, 2021. We also do not keep track of our users wallets. we just execute a function and all wallets, and sub wallets that hold WUSD bought from pancakeswap before 29th gets banned from trading WUSD! (This means that you cannot send or receive WUSD tokens.) the WUSD remains stuck in the wallet forever, but you will be able to send out BNB and other tokens.

If you are thinking of buying, or you have already bought some WUSD from pancakeswap, you can avert getting blacklisted by selling off the exact number of WUSD you bought back to Pancakeswap and buying them from the official website. Addresses have not been blacklisted yet! So you'll be able to sell it before August 29th, 2021!

Following the presale, we will set our price for the pancakeswap with Huge Liquidity at \$0.25. the price on pancakeswap will be updated from what it is currently to a high of \$0.25 and our LP will be locked and stable, so the initial Little Lp that was added will not matter a great deal to the coin price even if it is removed by the person who added it.

TERMS AND DISCLAIMER

Careful Research and due diligence should be made when interacting with projects or networks involved in token sales. The buyer or investor should completely understand that his/her contribution may not result in a valuable or usable token, and the value of such contributions is subject to partial or complete loss of the investment.

Any possession of WUSD does not grant the user any rights in WUSD the corporation or its affiliates, including but not limited to any rights of ownership, interest, profit, redemption, property or intellectual property, decision-making, or any other such rights, such as financial or legal rights. WUSD can be used for protocol and ecosystem governance that has nothing to do with the company or its subsidiaries.

The WUSD Protocol, which is a completely functional network, uses WUSD tokens as functional utility tokens. The WUSD tokens aren't considered securities. Tokens purchased with BNB are non-refundable. WUSD tokens are not intended for speculation. WUSD makes no guarantees about future success or value, including no guarantee of intrinsic value, no guarantee of continued payments, and no guarantee that WUSD will hold any specific value.

WUSD tokens are not company shares and do not grant any rights to the company. WUSD tokens are sold as a functional good, and all funds earned by the Company are available for spending without restriction.
